MY ROLE FOR ASSIGNMENT 2

WEB DEVELOPER

WHY MY LOGOMARK LOOKS THIS WAY

- It combines K and M into a geometric form symbolizing balance, structure, and individuality. Its sharp lines show precision and growth, while the bold black design reflects strength, clarity, and confidence.

Reflection

The hardest part was deciding which elements that represent my personal brand the best without overcrowding the design. I removed extra/unnecessary text and decorative icons to keep the focus on clarity and professionalism. The final layout, with its bold geometric logo and clean structure, reflects my values of precision, balance, and confidence. It communicates that I'm detail-oriented, thoughtful in my design choices, and committed to presenting a strong, consistent identity.
